

ALCOHOL CONCRETE DYE

Super Stone® Alcohol Concrete Dyes are concentrated solutions of alcohol soluble chemical dyes in methanol. These special dyes are designated to penetrate deeply into the pores of cementitious surfaces. These dyes are to be used to accent, tint, or enhance natural concrete or cementitious surfaces allowing the applicator to paint intricate designs or pictures.

RECOMMENDED USAGE

- Indoor Use Only
- Stamped Concrete Surfaces
- Super Surface® Overlay System
- Chlorstain
- Super Tex Wet & Ready®
- Concrete Color Hardeners

COVERAGE

The coverage varies greatly. It depends on the degree of dilution with methanol and the number of coats necessary for the specific application. Store in a cool environment and not in direct sunlight.

APPLICATION

Super Stone® Alcohol Concrete Dyes will color the specific surface but will not hide or cover the underlying area. These dyes are translucent, and in low concentration, transparent. Use the these dyes as they come for deep colors. Use 50/50 by volume with methanol/acetone for pastel shades. Use 1 part dye to 10 parts methanol/acetone for pale shades. If a very light color cast is desired, the dyes can be diluted with methanol or denatured alcohol as much as desired. Super Stone® Alcohol Concrete Dyes are available in eight ready-made colors to give applicators a pallet of colors to work with. Other colors can be obtained by inter-mixing any of the eight colors. Surface should be sealed with one of the Super Stone's clear sealers within one hour to one day after application.

SAFETY PRECAUTIONS

Use with adequate ventilation. A (NIOSH) approved respirator is recommended. Avoid breathing vapor for prolonged periods of time and use gloves to avoid repeated contact with the skin. Do not use near fire or flame. Do not smoke during application and drying periods. Use only non-sparking tools. In case of fire, use water spray (fog), alcohol resistant foam, dry chemical or Carbon Dioxide.

Avoid contact with eyes, skin, and clothing. First Aid: **Eyes**-- In case of eye contact flush right away with large amounts of water for at least 15 minutes and seek immediate medical attention. **Skin**-- Wash the affected area thoroughly with soap and water for at least 15 minutes. **Inhalation**-- If you experience difficulty breathing, remove yourself from the area to obtain fresh air. If symptoms persist or develop, seek medical attention. **Ingestion**-- Do not induce vomiting. Call a physician or poison control center immediately for further instructions. Never give anything by mouth to an unconscious or convulsing person. Rinse out the mouth with water.

Limited Warranty: Since no control is exercised over product use, Super Stone® only warrants that this product is of consistent quality within manufacturing tolerances. Seller's and manufacturer's obligation under this warranty shall be limited to refunding the purchase

price of the portion of the material proved to be defective. NO OTHER ORAL OR WRITTEN REPRESENTATION OR STATEMENT OF ANY KIND, EXPRESSED OR IMPLIED, NOW OR HEREAFTER MADE IS AUTHORIZED OR WARRANTED BY SUPER STONE, INCLUDING THOSE OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Super Stone will not be liable for special, incidental or consequential damages, including for delays or lost profits.
